

mpz_get_str

mpz_tostr

_mpz_selfdiv1_qr_raw

```
graph LR; A[mpz_get_str] --> B[mpz_tostr]; B --> C[_mpz_selfdiv1_qr_raw];
```

The diagram illustrates a sequence of three operations in a flowchart. The first operation, 'mpz_get_str', is in a white box. An arrow points to the second operation, 'mpz_tostr', also in a white box. A second arrow points from 'mpz_tostr' to the third operation, '_mpz_selfdiv1_qr_raw', which is in a gray box. This visual distinction likely indicates that the final operation is the primary result or the final step in the sequence.
